Four Easy Steps

TITO Tickets

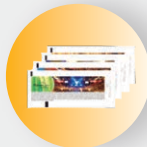

1. Review IGT Easy-Pay TITO Ticket Specification

Our design templates are based on the IGT specification. All templates are created in Adobe CS5. The maximum image (design) area or TITO tickets is 6.1" x 1.7" (153mm x 42mm)

2. Get inspired

Explore our library of sample artwork. Our photo quality presses allow precise one, two and four image repeat TITO Ticket packs. Use these examples to help you create your own custom TITO Tickets.

3. Download Review

If you use Cummins Bill Sorters, download the Cummins Template in the design software you prefer. For all other back end processing equipment, choose a program under All Others.

CA	Cummins	All Others	
	Adobe Illustrator		Adobe Illustrator
	Adobe InDesign		Adobe InDesign
	Adobe Photoshop		Adobe Photoshop

PVC Cards

1. Standard PVC Card Design Template

Design templates based on standard CR-80 specifications. All templates are based in standard (Credit Card) size 3.375" X 2.125".

2. Get inspired

Explore our library of sample artwork. Our photo quality presses produce a wide variety of PVC cards. Use these examples to help you create your own custom Player's Club, Hotel Key, & Gift Cards.

3. Download Review

When uploading your Design Files, please use one of the following programs.

Upload

When your designs are complete, return to the Design Portal at GraphicControls.com/Design and login. Select UPLOAD to send your zipped Illustrator, InDesign, or Photoshop files to our Ticket Team.
